

Your virtual Counsel powered by Generative AI

contact@klapper.ai www.klapper.ai

What sets KLapper apart?

Gen AI-Powered Intelligence: KLapper leverages the power of Generative AI to go beyond documents and learn your firm's key business datasets through "intelligent connectors," enabling it to provide contextually relevant responses and insights.

Secure Installation: KLapper can be seamlessly installed within your firm's Microsoft Azure Tenant, ensuring utmost privacy, confidentiality, and security for your valuable data.

Usage-Based Licensing Model: Users can benefit from a flexible and cost-effective usage-based licensing model, allowing them to scale their virtual assistant capabilities as needed with minimal up-front costs.

KLapper is exclusively designed for Knowledge Management (KM) & Innovations team members to design, train and deploy "no-code" virtual agents to Microsoft SharePoint, Zoom, Teams, Web apps, Mobile apps and to over 15+ supported channels (with minimal or no IT support).

KLapper Scenarios

Legal Research Assistance

Get quick access to relevant information, summarize legal concepts, analyze case law, and offer insights into legal issues.
